Print Date : 1/19/2004

# **Lackey Pond**

## **Wildlife Management Area**

*Uxbridge, Sutton*  
*150 Acres*

---

- SIZE:** 150 acre impounded section of the Mumford River
- ACCESS:** Informal access is available at the dam at the north end of the pond along Lackey Dam Road.
- HABITAT:** Lackey Pond is managed as a shallow pond and wetland to optimize waterfowl breeding opportunities and migratory waterfowl habitat. Water levels are controlled to provide aquatic vegetation beneficial to waterfowl and associated wetlands wildlife.
- WATER:** The Pond is shallow and heavily vegetated. The Mumford River channel provides a minimal amount of additional depth. Canoes, kayaks and other shallow draft watercraft provide the best means to enjoy the Pond.
- WILDLIFE:** Resident and migratory waterfowl are common on the Pond. Great blue and green herons share the shallows with red-winged blackbirds, tree swallows, muskrat and river otters. Largemouth bass, chain pickerel and panfish are present.
- SPECIAL REGULATIONS:**
